

Dear Business Owner or Manager,

The four major chambers of commerce in El Dorado County in association with several community business leaders recently formed the Local Commerce Council with the goal of launching a “shop locally” campaign. We are pleased to announce the creation of Neighboromics. Neighboromics’ goal is to stimulate economic activity by supporting El Dorado County businesses as a means of creating and preserving jobs and creating sales tax revenue for the county infrastructure.

Neighboromics will promote the consumer’s awareness of their importance in our community’s economy, by being able to reinforce our county’s employment base, law enforcement, fire safety, roads, and public health.

We would greatly appreciate your help in introducing and promoting Neighboromics. If you have a Web site, please consider providing a link to www.neighboromics.com. If you send information to your customers, such as a newsletter or bill, please consider mentioning www.neighboromics.com. You may copy the logo and tagline below for your link or mention.

If you have any questions, please call the El Dorado County Chamber of Commerce at 530-621-5885 or email members@eldoradocounty.org.

Thank you for helping spread the word about Neighboromics!
